

Customized Tube Furnaces

Rotary Tube Furnace RSR 250/3500/15S

RS 460/1000/16S for integration in a production plant

RS 100/250/11S in split-type design for integration into a test stand

With their high level of flexibility and innovation, Nabertherm offers the optimal solution for customer-specific applications.

Based on our standard models, we develop individual solutions also for integration in overriding process systems. The solutions shown on this page are just a few examples of what is feasible. From working under vacuum or protective gas via innovative control and automation technology for a wide selection of temperatures, sizes, lengths and other properties of tube furnace systems – we will find the appropriate solution for a suitable process optimization.

Laboratory

- Muffle Furnaces
- Preheating Furnaces
- Ashing Furnaces
- Tube Furnaces
- Ovens
- Air Circulation Furnaces
- Chamber Furnaces
- Melting Furnaces
- High-Temperature Furnaces
- Rotary Furnaces
- Vacuum Furnaces
- Brazing Furnaces
- Clean Room Furnaces
